Subject: Finals Week

Hi Professor,

Just a note to say thank you for all you've done.
I have had two courses with you now; and, they have been the most extraordinary learning experiences I have had yet.

I unfortunately did not have time to complete evaluations; but, I wanted you to know I very much valued your guidance and expertise in your fields of experience/study. You provided a comprehensive structure of learning, research, and application of analytical skills.

I enjoyed this course very much; did not do so well on the comprehensive tests {time constraints}; was a bit behind timeline for project; but, nonetheless, I am very grateful for the experience.

Thank you again,

Randi Rae Sexton-Strahm
