Subject: Good To See You Participate and a Suggestion: G. Keller

Good Evening Wilson,

I am proud that you attended the Workshop today. Not only because you were representing the COB but also showing interest in the topic. As we are a minority among university faculty members, having two COBers in the group always sends a positive message. I also impressed by your willingness to work with the bookstore and turn another one of your classes loose on a worthwhile project.

Finally, make sure to record your attendance at today's event in your tenure file (meaning the one that you will submit in about 1.5 years) under professional development. Activities such as this are important to show on in your tenure file.

I also hope you are making solid progress on your dissertation.

Cheers,

Gary

F. Keller, Ph.D., Professor
