Subject: Dr. Zehr's class marketing projects have been quite useful to us at Nature's Pantry

Hello :)

I'm writing to express my appreciation for the feedback we've received at Nature's Pantry from Dr. Wilson Zehr's students and their marketing projects. I believe the way Dr. Zehr is engaging the students in real life application and in the community is very valuable for both the students and the businesses.

At Nature's Pantry, we are very supportive of EOU and love having connection and learning opportunities with the students. We believe, connection between EOU's business program and local businesses is very important for the health of our community. Furthermore, we very much value the input we have received from Dr. Zehr's students and have used their feedback to guide business decisions.

Sincerely,

Blake Bars
